To
Hiring Committee,
NBCUniversal

December 5, 2024

Dear Hiring Team,

I hope this message finds you well. I am writing to express my interest in the Summer 2025 Internship Program at NBCUniversal. I am currently pursuing a Master's degree in Computer Science and Engineering at the University at Buffalo, with a graduation date of December 2025. I am excited about the opportunity to contribute to NBCUniversal, particularly within the Digital Insights and Data Visualization teams.

As someone passionate about media, technology, and data-driven solutions, I believe my skills align well with the responsibilities of this internship. During my previous experiences as a Senior Technology Associate at Colgate-Palmolive, I collaborated with a team of developers to build and maintain proprietary software, leveraging tools such as React, Django, Kubernetes, and Google Cloud. I have also worked on projects involving data analysis, machine learning, and building high-performing backend services.

Additionally, I have a strong background in programming languages such as Python, Java, and C++, along with practical experience in data visualization and using platforms like Tableau and PowerBI. I am particularly drawn to NBCUniversal's focus on innovation, and I would love the chance to apply my technical skills to support your mission of providing insightful and compelling media content. I am enthusiastic about the prospect of contributing to the development of cutting-edge digital solutions and collaborating with a talented team.

Thank you for considering my application. I look forward to the possibility of discussing how my skills and experiences can contribute to the NBCUniversal internship program.

Sincerely,

Pratik Fandade
