Hiring Manager, SRC Inc.
Syracuse, NY

Dear Hiring Manager,

I am excited to apply for the Summer 2025 Software Engineering Internship at SRC Inc. I am currently pursuing a Master's in Computer Science at the University at Buffalo, building on my Bachelor's in Information Technology from Vishwakarma Institute of Technology, Pune. My academic background, paired with hands-on experience in full-stack development and software engineering, makes me eager to contribute to your mission-critical projects.

In my role at Colgate Palmolive, I developed scalable, low-latency solutions using technologies like Django, React, and GCP, collaborating with teams to improve system efficiency. Additionally, my experience with machine learning and real-time applications has honed my ability to create innovative, high-impact software solutions.

SRC's focus on defense, environmental, and intelligence systems aligns with my interests, and I am eager to bring my problem-solving skills to your team. Thank you for considering my application; I look forward to discussing how I can contribute to SRC.

Thanks in advance!

Pratik Fandade
